Volume Copy Override

Use this worksheet – along with the Volume Department Copy worksheet - to weight the value of procedures in a department that is being copied. Also, you can use this worksheet to copy billing codes from one department to another rather than using the Volume Department Copy worksheet to copy the billing codes for an entire department. You can exclude procedures by assigning a weight of 0.

	Billing Facility Code	Billing Department Code	Destination Billing Facility Code	Destination Billing Department Code	Procedure Code	Weight
Field Name						
Data Type	Character	Character	Character	Character	Character	Decimal
Max Length	50	50	50	50	50	16,6
Example	140	14080155597	150	15011150000	STA-8200000	0.250000
